## Looking For Radiology Department Support? *Imaging On Call* Can Help

*Imaging On Call* provides imaging services, financial solutions and cost control that help you survive – and succeed – in today's healthcare environment.

Our portfolio features teleradiology and on-site radiology staffing, management services for outpatient and inpatient imaging operations and financial resources to help you procure new modalities and enlarge your facilities.

**Staffing** - RADNET's Board certified, fellowship trained radiologists are skilled in all imaging modalities with subspecialty training in all areas. As an extension of radiology practices, or as a full service radiology department provider RADNET provides final reports 24/7/365.

**Comprehensive Subspecialty Coverage** - Board-certified radiologists from every field of diagnostic and interventional imaging (MSK, Mammo, PET, US, Cross Section and 3D reconstruction) – all supporting you. These specialists work closely with our team of trained, teleradiologists to cover day and night subspecialty readings – as well as readings involving emergent, routine and overflow studies.

**Daytime/Nighttime Coverage** - RadNet provides complete nighttime and daytime teleradiology coverage for both preliminary and final reports.

**Radiology Administrative Services** - handle your most time and labor intensive clerical tasks, including billing. Our efficiencies of scale execute departmental tasks for a fraction of typical non-physician personnel costs and free your staff for your most mission critical work.

**Medical Director Leadership** - Our medical directors provide overall radiology department management with a focus on Quality, improved financial performance, increased productivity and improving communications with the medical staff. The medical director will attend all required medical staff meetings.

**Quality** - Quality is crucial to our success. RadNet radiologists all adhere to a strict quality control program following the ACR Radpeer guidelines.

**Radiology Technology** - Providing complete turn-key RIS and PACS through our eRad subsidiary. We provide full technical support and resources 24/7/365.

**Financial Resources** - We deliver specialized support for Capital Improvements, including acquiring new modalities and/or facility expansion that meet your specific requirements.

## About *Imaging On Call*

Serving radiology groups since 2002, *Imaging On Call* is a US-based, Joint Commission-accredited, full-service radiology services provider. Its client facilities range from hospital-based and non-hospital-based radiology groups, hospitals, imaging centers and urgent care centers, to single and multispecialty private practice groups and research foundations.
