Imaging On Call Ranks No. 3,331 on the 2009 Inc. 5000 with Three-Year Sales Growth of 76%

NEW YORK, August 19, 2009 -- *Inc.* magazine today ranked Imaging On Call on its third annual Inc. 5000 list, an exclusive ranking of the nation's fastest-growing private companies. It is the second year in a row Imaging On Call (IOC), a [teleradiology](#) company based in Poughkeepsie, NY, has been named to the Inc. 5000 list.

From 2005 to 2008, Imaging on Call increased its revenue by 76.1 percent to \$11.9 million in 2008. Imaging On Call was ranked 3,331 overall and 227 in the Health industry.

"It is an honor to be recognized by *Inc.* magazine," said Mike Lampron, Imaging On Call CEO. "We are proud to be ranked among some of the most successful private companies in the nation." Speaking about the future of IOC, Mr. Lampron said, "The [teleradiology](#) market landscape is changing at a rapid pace. With a strong emphasis on our core values and customer service, I look forward to introducing additional product lines to our [teleradiology services](#) that will enhance our growth and maintain our position as an industry leader."

The Inc. 5000 is ranked according to percentage revenue growth from 2005 through 2008. To qualify, companies must have been founded and generating revenue by the first week of 2005, and therefore able to show four full calendar years of sales. Additionally, they have to be U.S.-based, privately held, for profit, and independent -- not subsidiaries or divisions of other companies -- as of December 31, 2008.

For more information on teleradiology services from Imaging On Call visit www.ImagingOnCall.net.

About Imaging On Call:

Imaging On Call is a Joint Commission accredited, full service teleradiology provider with a focus on quality patient care. The company's thirty-four Board certified

radiologists provide remote radiology reading services to hospitals and imaging centers across the country. As a U.S. based teleradiology provider, offers more flexible packages for [teleradiology services](#) including preliminary reads, final reads, subspecialty reads, overflow and vacation coverage, image processing and interpretation for CCTA and interpretation of Breast MRI studies. IOC also provides exceptional services for stroke studies with rapid turnaround time and a phone consultation for critical findings.
